

Sea Level CCI Phase II Final review

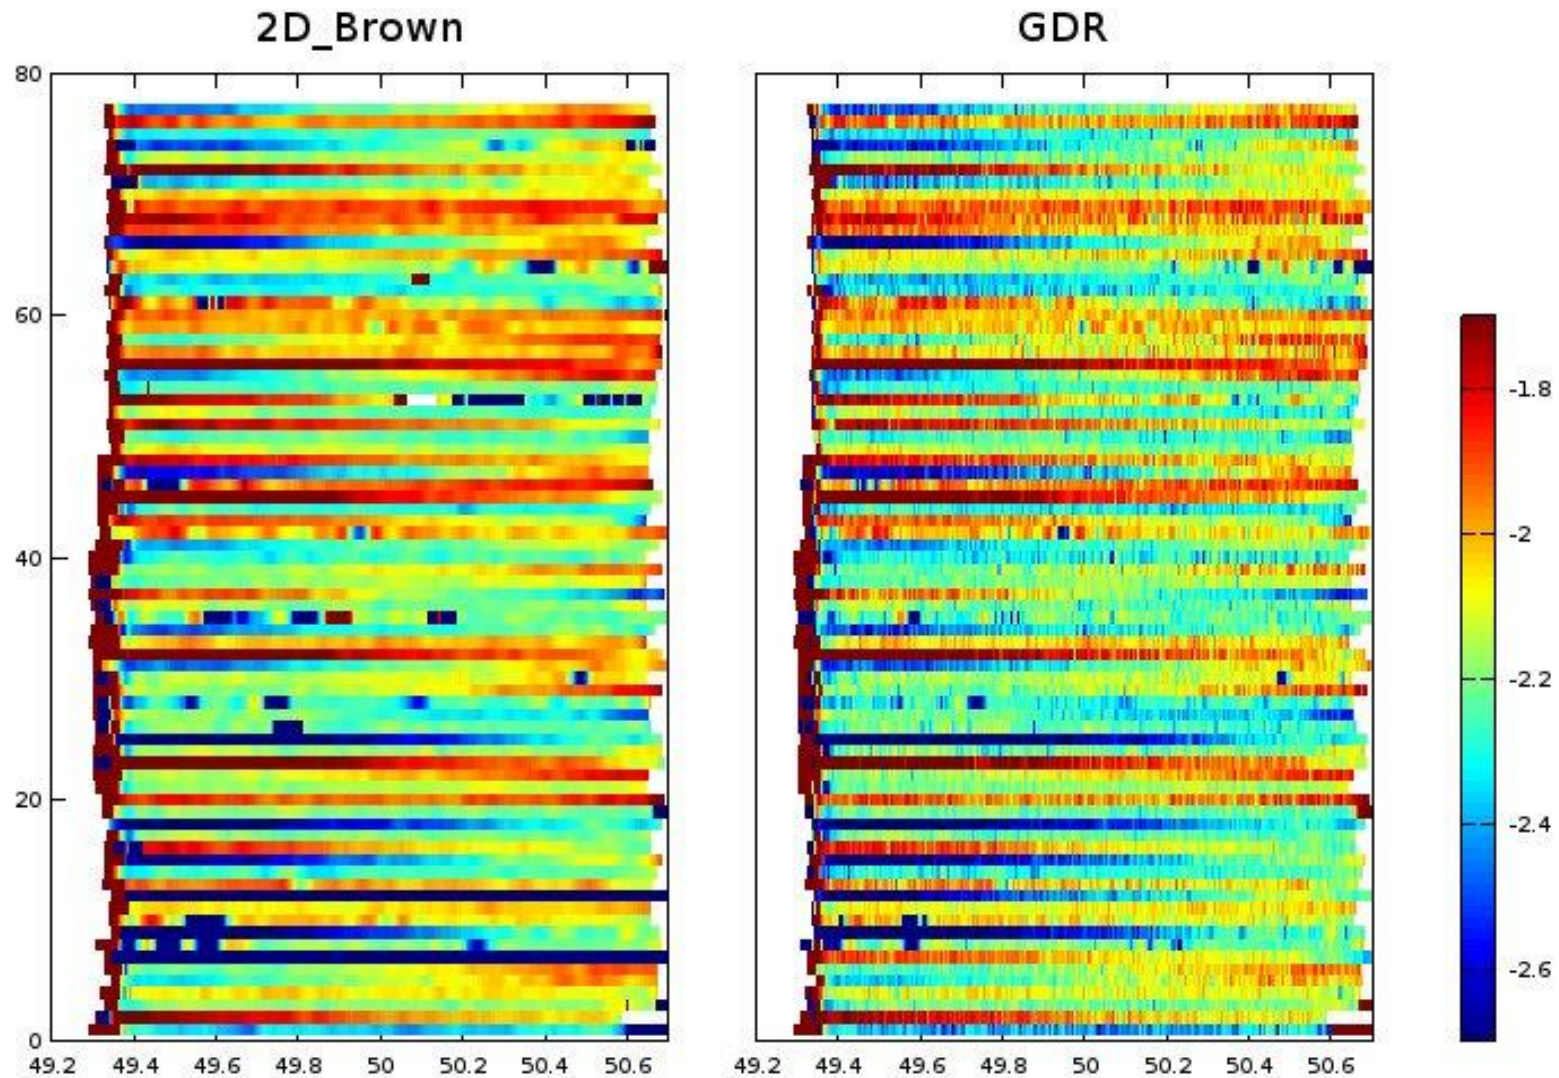

*WP2700 : Implementing and Evaluating
a 2-D Retracker*

G.D. Quartly & A. Kurekin

(Simulated data)

Total SL

Tide Gauge
Altimeter

Tidal res.

→ S.D. of difference after tidal correction

2D retracker technique coded and implemented

Works well in open ocean

(processing time $\sim 3x$ standard processing)

Tracks close to 12 TG stations processed for ~ 87 cycles

Evaluation still ongoing
