

Sea Level CCI project Phase II

Conclusions

The SL_cci project:

- **International collaboration** with 15 European partners
- An international **panel of experts** invited to assess the processing activities (Algo Sel. Mtg)
- Collaboration between **sea level experts** and **climate modelers** (via CMUG)
- Contribution to a **European network of expertise**
- At the origin of a **new integrated project** (“Sea Level Closure Budget”)
- **Innovative framework** (ESA Round Robin exercise) (formal validation protocol)
- Relationship with **international organisations** (GCOS, WCRP, ISSI, IPCC...)
- Interactions with the **users**
- Outreach and international **promotion** of the activity (conferences, publications...)

⇒ **Very positive synergy!**

**Thanks for your contribution to this
successful achievement !!!**
